

# Conflict of Interest & Time

All faculty members need to sign this form every year during their stewardship interview. This document discusses the importance of not using your position as a faculty member incorrectly (such as selling products or advertising for things that will lead to your or someone else's personal financial gain) or not giving primary or professional responsibility to the university.

You can access this document to review it at this PDF link: [Conflict of Interest or Time Commitment](#). To find more information about Conflict of Interest or Time, you can go to this website: [BYU Conflict of Interest & Time Procedures](#).
